

EASY BENCH

DOWNDRAFT TABLE

SPECIFICATIONS

Construction:	14/16 ga. welded steel, powder-coated white cabinet
Motor/Blower:	All-aluminum BCC (backward curve centrifugal) motor rated UL & CSA.
Noise Level (dBA):	66
Electrical:	115/1/60, 185 watts
Filters:	(2) 24" x 24" x 4" standard efficiency MERV 11; optional efficiency MERV 13, MERV 14, HEPA
Dimensions:	W- 36" H- 30" D- 24"
Air Flow Max (CFM):	800
Weight (lbs.):	175

Ergonomic Design with Industrial-Grade Dust Control

The Airflow Systems Easy Bench downdraft table combines powerful dust collection with ergonomic design for improved comfort and efficiency. Its standard-height work surface, hinged top with catch tray, and seamless backsplash make operation and cleaning simple. A high-flow, direct-drive blower delivers strong, quiet performance, while easy-access panel filters provide cost-effective, low-maintenance operation.

Options

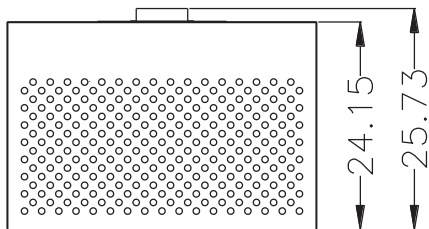

- **Height Modification:** 28", 32" and 36" available.
- **One-Inch Ball Casters**
- **Soft Mat Cover:** Made of interlocking tile with 1/4" openings.
- **Odor Adsorption Filter**
- **Backsplash Extension:** Clear Acrylic to 16".
- **Easy Lift-Out Parts Catch-Tray:** Made of high-impact white styrene.

Features & Benefits

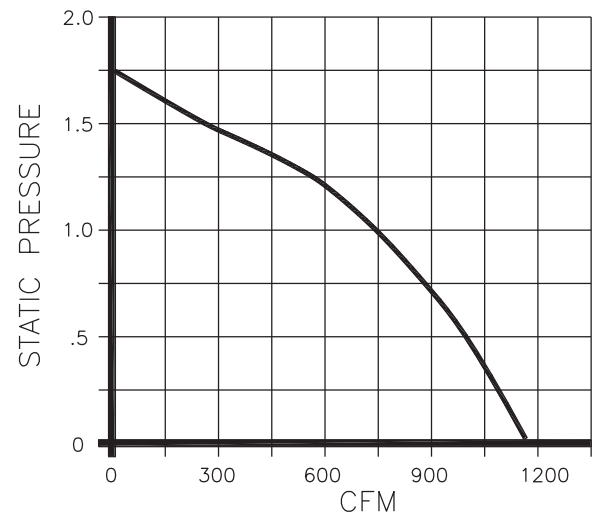

- **Maximum Comfort:** Designed ergonomically with standard desk height and full leg room to reduce operator strain and fatigue and optimize productivity and efficiency.
- **Streamlined Construction for Ease of Use:** Hinged top simply lifts up for access to the catch-tray which traps any larger particles or small tools that may fall through the holes. Seamless integration of back-splash guard on three sides means no crevices to trap dirt, making cleaning easy.
- **Direct-Drive, High-Flow Blower:** The Airflow Systems exclusive high-tech reverse-mounted motor/impeller is the secret to the strong airflow, quiet operation, and compact design of the Easy Bench.
- **Cost-Effective, Low-Maintenance Operation:** Two standard 24" x 24" x 4" panel filters allow for low filter velocity and high dust holding capacity.
- **Easy-Access Filters:** Filters slide in and out from the front, with easy-seal magnetic covers.
